

REJUVENIZE PEEL™

\$200

Rejuvenize Peel is an advanced formulation of peeling agents, with a built-in anti-irritant and penetration enhancer that provides controlled exfoliation of the uppermost damaged layers of the skin to reveal fresher and healthier skin. Provides predictable results with minimal down time.

- Effective for use on skin with sun damage, melasma, pigmentary changes and acne scarring
- Noticeable improvement with just one peel
- Recommended for Skin types I-VI
- Can be used on skin types V-VI after the patient has established tolerability to Vitalize Peel, or with physician consent
- Well tolerated with minimal "down time"

ILLUMINIZE PEEL™

\$150

This non-invasive very superficial chemical peel utilizes a novel approach to chemical peeling with a newer generation of alpha-hydroxy acids (mandelic acid and malic acid) in combination with phytic acid and commonly used peeling agents (salicylic acid and resorcinol) to maximize skin rejuvenating effects with low irritation.

- Increase skin glow and radiance
- Tightens the skin and restores a more youthful appearance
- Improves clarity, color and skin texture
- Patients achieve enhancement of skin appearance with minimal downtime and discomfort
- Appropriate for first-time chemical peel patients or patients looking for a gentle, very superficial peel
- May be performed on Skin types I- VI
- Little or no visible peeling
